Q1: What is the purpose of this document?  
A: The purpose of this document is to provide a comprehensive overview of the project's goals, objectives, and scope. It serves as a guide for all stakeholders involved in the project.

Q2: How will this document be used?  
A: This document will be used as a reference for project planning, execution, and monitoring. It will also be used to communicate project information to stakeholders.

Q3: Who is responsible for this document?  
A: The project manager is responsible for this document.

# Project Charter

The project charter is a document that defines the project's purpose, objectives, and scope. It is the first document created in the project management process. The charter is used to communicate the project's goals and objectives to stakeholders and to gain their support. It also serves as a reference for project planning and execution.

The project charter is a key document in project management. It provides a clear and concise overview of the project's goals and objectives. It is used to communicate the project's purpose and scope to stakeholders and to gain their support. The charter also serves as a reference for project planning and execution.

The project charter is a document that defines the project's purpose, objectives, and scope. It is the first document created in the project management process. The charter is used to communicate the project's goals and objectives to stakeholders and to gain their support. It also serves as a reference for project planning and execution.

The project charter is a key document in project management. It provides a clear and concise overview of the project's goals and objectives. It is used to communicate the project's purpose and scope to stakeholders and to gain their support. The charter also serves as a reference for project planning and execution.
