INTERNATIONAL CONFERENCE ON POLYMERIZATION OF VINYL MONOMERS

The International Conference on Polymerization of Vinyl Monomers was held in London, England, from September 10 to 14, 1967. The conference was organized by the British Chemical Society and the International Union of Pure and Applied Chemistry (IUPAC). The main theme of the conference was the polymerization of vinyl monomers, with particular emphasis on the mechanism and kinetics of the process. The conference was attended by approximately 100 scientists from various countries, and it provided an excellent opportunity for the exchange of ideas and information in this field.
