

FRONTIER EQUITY FUND

FRONTIER EQUITY FUND

The investment objective of the Fund is to invest primarily in common stocks of U.S. companies that the investment manager believes have the potential for long-term growth. The Fund may invest in a diversified portfolio of securities, including common stocks, convertible securities, preferred stocks, and bonds. The Fund may also invest in foreign securities, including common stocks, convertible securities, preferred stocks, and bonds. The Fund may invest in any securities that the investment manager believes are appropriate to the Fund's investment objective.

The investment manager will use a variety of strategies to achieve the Fund's investment objective, including buying and selling securities, using derivatives, and investing in private equity. The investment manager will also use a variety of risk management techniques, including diversification, hedging, and using derivatives. The investment manager will also use a variety of valuation techniques, including discounted cash flow, market multiples, and other valuation methods. The investment manager will also use a variety of research techniques, including fundamental research, technical analysis, and quantitative analysis. The investment manager will also use a variety of other techniques, including portfolio optimization, risk management, and other techniques.

The Fund is subject to the risks associated with equity investments, including market risk, credit risk, and liquidity risk. The Fund is also subject to the risks associated with foreign investments, including currency risk and political risk. The Fund is also subject to the risks associated with derivatives, including counterparty risk and basis risk. The Fund is also subject to the risks associated with private equity, including illiquidity risk and valuation risk. The investment manager will use a variety of techniques to manage these risks, including diversification, hedging, and using derivatives. The investment manager will also use a variety of other techniques, including portfolio optimization, risk management, and other techniques.
